

December 21, 2009

To Whom It May Concern:

Please accept this letter of recommendation for Williams-Brown, Inc. and their ability to competently perform and manage work in the construction industry. We are an architectural firm in Pensacola, Florida. We have been associated with Williams-Brown, Inc. over the past three (3) years.

Williams-Brown has demonstrated their ability to properly manage and efficiently execute their responsibilities on an extremely complex project which had numerous underground utilities complicating it. It has been our experience that changes in the initial scope of work and associated documentation was handled expeditiously and with minimal disruption to the project's schedule.

The workmanship of Williams-Brown and their sub-contractors has always exceeded industry standards and they should be commended for their efforts and commitment to their projects. Williams-Brown has diligently coordinated their efforts with our office and the Owner's Project Manager, keeping all well informed of the project status. We have no reservations in recommending them in any capacity and look forward to working with them on future projects.

If necessary, please do not hesitate to contact me at (850) 432-3153.

Sincerely,

STROBEL & HUNTER, INC.

George E. Hunter, Jr.,
Vice-President
